FLOREAN MUSEUM

THE DRAWING SALON

Generally, everything that is linked to rules makes me “shiver”, because the rules “ask a lot and offer a little”. I’ve always had the sensation that the rules are not made to be of service to the work of art but to the pride of those who conceive them or at the best to the jury who is supposed to be impartial...

I will not make rules for the Drawing Salon but a manifesto for all these reasons and for many others that I can’t mention here from decency;

I want to exhibit “jewelry drawing”;

As “jewels” they have to be of small size (let say maximum 17 cm the long side). The only restriction is this... (Pass over it...);

Any drawing technique is accepted and the number of works is unlimited;

This year I have been thinking to a very beautiful subject named “NUDE”; (I’ve already made a few drawings on the subject that I’m going to take part in the salon as there is no competition...);

This is not a competition with prizes (that’s the reason I take part in too...);

We will grant awards next year if this salon is interesting;

This year we work for our own pleasure as if we organized a party for our friends;

Send all your works, before the 25th of October 2009 (the post date), to the following address:
